ABOUT VISMA

Visma makes businesses more efficient, through offerings of software, outsourcing services, commerce solutions, retail IT-solutions, and IT-related projects and consulting. Visma simplifies and digitalizes core business processes within the private and public sector.

340,000 customers in Northern Europe utilize Visma's products and services, and an additional 330,000 use Visma as a hosting partner. The group has 5 600 employees and its net revenue amounted to NOK 6 500 million in 2013.

Internationalization made simple

Visma Solutions Oy is focused on automation of Enterprise processes. Netvisor ERP Cloud Service has grown to be its segment's fastest growing service within SMB customers. Along with the growth, there has been strong demand for simpler ways to do online authentication of international customers.

«Our customers can now log in securely to Netvisor, using authentication methods they are already familiar with!»

Risto Matikainen, Visma Netvisor.

Visma Netvisor software director Risto Matikainen sums up the benefits of the cooperation: «Signicat offers our Nordic and Baltic customers a simple and secure way of Netvisor login, using methods they are already familiar with.» Mikael Kempainen from Signicat continues: «International companies like Visma has an extremely good business case to use our centralized platform and outsource the authentication process!».
